

Fawaz Hassan

Lahore, Pakistan • 03264483775 • fawazhasan951@gmail.com • fawaz951-mal.github.io

PROFILE

Computer Science student with practical experience in customer support and transportation operations, alongside hands-on experience building and programming an ESP32-based 4WD vehicle. Familiar with C, C++, and web technologies, with ongoing learning in Python, Linux, networking, cybersecurity fundamentals, and prompt engineering.

EDUCATION

BS Computer Science (BSCS) University of Lahore (UOL) • 3rd Semester • CGPA: 3.2	Current
Intermediate (ICS) Unique College, Lahore • 718/1200	
Matriculation (Computer Science) Unique High School, Lahore • 916/1100	

TECHNICAL SKILLS

Programming: C, C++, Python (currently learning), MicroPython	Web: HTML, CSS, JavaScript
Operating Systems: Linux (beginner)	AI: Prompt Engineering
Other: Basic computer hardware and software troubleshooting	

PROJECT

ESP32 Smart 4WD Car	MicroPython • HTML • CSS • JavaScript
- Assembled and wired a 4WD vehicle using an ESP32, motor drivers, motors, and power components. - Programmed the ESP32 with MicroPython to control motor operation and vehicle movement. - Developed a browser-based control interface using HTML, CSS, and JavaScript. - Configured the ESP32 as a Wi-Fi access point so connected devices could access and operate the controller.	

CYBERSECURITY & TECHNICAL LEARNING

- Currently building foundational knowledge in cybersecurity, networking, Linux, and system security.
- Practicing basic security concepts through hands-on labs and virtual environments.
- Exploring Nmap, Wireshark, and Splunk, along with basic system enumeration and log analysis.

PROFESSIONAL EXPERIENCE

Customer Support Agent	Dec 2024 – Feb 2025
- Assisted customers through live chat with complaints, questions, orders, and account-related requests. - Communicated with customers to understand issues and provide appropriate assistance. - Handled customer requests while maintaining clear and professional communication.	
Freight Dispatcher	Mar 2024 – Jun 2024
- Took calls from truck drivers regarding available loads and transportation details. - Booked loads for trucks transporting shipments between U.S. states. - Worked with different truck types, including flatbeds and reefers. - Communicated with drivers regarding load assignments and transportation arrangements.	
Vehicle Brokerage Specialist	Jul 2023 – Jan 2024
- Assisted customers arranging transportation for vehicles between different locations. - Matched customers with drivers available to transport their vehicles. - Served as the point of communication between customers and drivers. - Coordinated basic transportation details between both parties.
